Sir,

Establishment - Temporary - Bellary Division - Plassey Barracks Works - Additional staff - requirements-

---

I forward herewith a copy of the letter from the Executive Engineer, Bellary Division, to the Superintending Engineer, Bezwada Circle, regarding the urgent necessity for additional staff for Plassey Barracks work. It will be seen therefrom that works estimated to cost Rs.1,46,000/- have to be executed immediately and this cannot be done without sufficient establishment, executive as well as office. The Superintending Engineer, Bezwada Circle, has reported that the Adviser to His Excellency the Governor (T.Austin Esq.,) who inspected the Alipuram Jail on 2nd February 1941 has verbally instructed him to put in hand the additional works of improvements and repairs to Blocks Nos.3 to 5 and 8, besides further improvements to the other blocks and also improvement of the existing Water Supply from the Municipal Main and from Allipuram tank and to have them completed as early as possible.

2. The following staff is now employed on the work and the existing sanction (accorded in G.Os.Nos.2456 P.W., dated 12-11-40 and 2886 P.W., dated 23-12-40 (as amended by P.W.D. Memo.No.231 B/41-2, dated 31-1-41)) is due to expire on 3--3--41 afternoon:--

One Sub Divisional Officer.
Two Supervisors
Two lower division clerks for the Subdivision.
One accounts clerk (lower division) for the Division Office
and Four peons

The Superintending Engineer applies for the following establishment in addition to the above, (vide also tabular statement attached):--

(i) Four Supervisors, One Draftsman, One Tracer, Four peons. — From date of (immediate) employment upto 3--3--41 afternoon.

(ii) the Subdivision to be continued for a period of six months from 3--3--41 afternoon (the date of expiry of the present sanction) with the following staff:-

(a)(i) One Subdivisional Officer, Two Supervisors, Two lower division clerks for Subdivn., One Accounts Clerk for Divn.Office and Four peons. — for the full period of six months from 3--3--41 afternoon

and (ii) One draftsman and 1 tracer for 4 months from 3-3-41 afternoon.

(b) One Supervisor and one peon - for 5 months from 3-3-41 Afternoon.
(c) One Supervisor and one peon - for 4 months from 3-3-41 -do-

Sub:- Continuation of the Special Sub Division for Plassey Barracks

The estimates for Emergent repairs to a portion of vacant Blocks (9,10,14 to 17 and 15A to 17A, workshops, Quarantine Ward and 'G Block of Alipuram Jail were prepared in the months of September and October 1940. Some of the works were started in October '40. A special Supervisor was sanctioned and he joined duty on 24-10-40. The Special Subdivision sanctioned in G.O.No.Ms.2456 P.W.D., dated 12-11-40 for these works was formed on 4-12-40 and sanction will expire by 3-3-41. The Establishment sanctioned was:--

| | |
|---|---|
| 1 Sub Divisional Officer. | For 3 months. |
| 2 Supervisors. | |
| 2 Clerks for the Subdivision. | |
| 1 Accounts Clerk for the Division Office | |
| 4 Peons. | |

The works were however started before the formation of the Special Sub Division by deputing temporarily the Section Officers Siruguppa, Gooty, Anantapur, Bellary, Kamalapuram, Kudligi, & Kampli, and these were working some time before the actual formation of the special subdivision. The works contemplated in the Scheme Estimate of Rs.77,000/- have been carried out to completion excepting for accounts, with 13 supervisor months and 5 Assistant Engineer months. Before the Sub Division was started, the Sub Divisional Officer, Bellary was having additional supervision over these works to the actual stoppage of other works. Thus it could be seen that it has taken 13 supervisor months and 5 Assistant Engineer months for completing the 1st scheme of repairs estimated at 77,000/-. But this scheme estimate has come to about Rs.80,850/- because of the later additions and improvements suggested by the Inspector General of Prisons from time to time. We want at least 2 Supervisor months and 1 Assistant Engineer months for closing the accounts and submitting completion reports for these works.

It is now proposed to improve these blocks further at an approximate cost of Rs.48,000/-. It is also proposed to take up simultaneously the improvements and extensive repairs to the remaining vacant blocks 3,4,5 and 8; to improve the existing water supply from the Municipal main to these blocks. This costs Rs.98,000/-. The total value of work to be done hereafter will be Rs.1,46,000/-.

The nature of work now to be done is more difficult for the various reasons given (a) The labour is scarce being harvest season, (b) The works to the extent of 48,000/- have to be done within the Jail Compound subject to Jail restrictions. (c) There is difficulty in obtaining iron articles. (d) New stones, bricks, metal etc., for the major portion of the works have to be got and brought to site. For these reasons it is absolutely necessary that there should be sufficient establishment for carrying out the works as urgently as required by the Jail Department.

The number of Assistant Engineer months and the Number of Supervisor months will be as follows taking into consideration the staff that was required to complete the works so far done. Value of further work to be done Rs.1,46,000/-.

No. of supervisor months required: 27 Supervisor months:-

$$\frac{1,46,000}{80,850} \times 15 \text{ Supervisor months}$$

In addition 3 supervisors are required for completing accounts and final bills for the completed present scheme.
No. Assistant Engineer months 11.
The actual No. required is given separately in statement.

The work in the Division has been very heavy and there is good deal of arrears in the Division and a number of estimates, plans, indents, tenders and agreements had to be checked urgently ever since the Plassey Barracks works were commenced. The draftsmen and the tracer in the Division were so far engaged mostly in the Plassey Barracks works and other urgent works are being held up. The routine work of the office has suffered thereby, it is therefore necessary that one draftsman and one tracer are also sanctioned for the remaining period of the ~~xx~~ existing sanction and for the full period the Sub Division is proposed to be extended.

The additional sanction required will therefore be.—

Extra staff to end of 3rd March 1941 over and above the present staff of the Special Sub Division.
